High Quality Condensing Units for Diversified Commercial Use

- High operating efficiency
- High system application flexibility
- Electronics control module
- Years of trouble-free operation
- Ozone Friendly refrigerant (R-407C)

Features & benefits

These dependable outdoor sections match Carrier's indoor air handlers and direct-expansion coils for a wide selection of commercial cooling solutions.

Constructed for long life

Models 38AF are designed and built to last. The copper tube-aluminum fin outdoor coil construction provides years of trouble-free operation. (Where conditions require them, copper fin coils are also available.) As option Cabinets are constructed of prepainted galvanized steel, delivering unparalleled protection from surface rust. Inside and outside surfaces are protected to ensure long life, good looks, and corrosion resistance. Solid-state safety controls are used for enhanced system reliability.
